

GHG Assessment

Role description

We are looking for a Carbon Footprint technical specialist to join our sustainability team. This is a fixed term opportunity for 12 months.

- Have you got a passion for sustainability?
- To conduct environmental impact measurement including greenhouse gas inventories and life cycle assessment, environmental product declarations and subsequent analysis
- You will have a science-based and data driven approach
- Are you passionate about communicating research and findings for different audiences?

About us

Bremworth is an iconic New Zealand brand offering premium wool carpets uniquely designed and made in New Zealand. With over 60 years in the flooring business, Bremworth's ingenuity to innovate with natural materials aims to make homes more sustainable, safer and desirable places to live. Through operations in Auckland, Napier and Whanganui, Bremworth sources the best quality New Zealand wool for crafting woollen yarn into premium carpets and rugs.

You will enjoy working with a diverse team, be curious and have a sense of purpose. This is an opportunity to work on real industry challenges and make a difference.

About you

- Experience with standards such as ISO:14040, ISO:14001, ISO:14025, EN:15804
- Experience in organisational carbon reporting standards including mandatory climate-related disclosures
- Experience with conducting life cycle analysis and environmental product declarations
- Ability to learn, work independently and collaboratively.
- Excellent written and oral communication skills.
- Solution focused and demonstrates exceptional attention to detail.
- Demonstrate high ethical standards, diligence, and professionalism.

The application must include the following:

- Cover letter explaining your interest and why you think you are suited to the position
- CV (summarising education and academic record, employment, projects / outputs, names of references.)

If you would like to know more about this opportunity, please contact by email careers@bremworth.co.nz

Bremworth acknowledges the co-funding of this project by the Ministry for Primary Industries' Sustainable Food and Fibre Futures fund.
